

## **FINDING & ANALYZING ROYALTY RATES**

**Tuesday January 18, 2011  
12:30 PM EST**

### **Facilitated by:**

#### **David Jarczyk, Chief Operating Officer (ktMINE)**

David R. Jarczyk is COO of ktMINE, an intellectual property data and information services firm, and has extensive experience conducting functional, risk, comparable company and economic analyses in a variety of industries. David also has expertise in performing business enterprise and intangible property valuations, as well as performing financial analyses and benchmarking on an individual company and industry-wide basis.

David drew from his expertise in performing various transfer pricing services for multinational companies for tangible, services and intangible property transactions to create ktMINE's Intangibles Royalty Rates database.

David has published numerous articles including "How appraisers can 'get it right' in reasonable royalty cases," Business Valuation Update, January 2010. His speaking engagements include "The Impact of The Transfer Pricing Service Regulations" presented at various conferences.
